

# Installation Confirmation

**PLEASE NOTE:**

The installation of your equipment cannot be undertaken until this Request Form has been completed and returned to **Straightset Limited**. When it is received the work will be allocated and you will be contacted to arrange a mutually convenient installation date. Please ensure that all the requirements have been fulfilled before returning this request form.

Installation Site: Address:	Contact Name: Position: Email Address:  Telephone no:
--------------------------------	---

Equipment to be installed:

Lifts <input type="checkbox"/>	Brake Tester/ Headlight tester <input type="checkbox"/>	Test Lane/ M.O.T Bay <input type="checkbox"/>	Oil Tanks <input type="checkbox"/>	Pipe work/ Exhaust Extraction <input type="checkbox"/>
--------------------------------	---	---	------------------------------------	--

**SITE REQUIREMENTS**

PLEASE TICK

**Floor**      The concrete floor is of the correct density and thickness and any excavations or plinths are to the manufacturers specified dimensions and requirements. All tiling must be complete or not started.

**Location**      Location of the equipment is agreed and takes due account of legislation and safety requirements. It is free of obstruction and ready for installation. Check that wall mounted displays will not be hazardous to personnel or vehicles.

**Delivery**      Suitable lifting equipment will be available to remove the Lift/Brake Tester etc, from the lorry to assist with installation.

**Storage**      The equipment is on site and adjacent to the location where it is to be installed.

**Electrical**      There is available an isolated electrical supply of the correct voltage and amperage for the equipment to be installed. A separate isolator is required for each item. A competent electrician must be on site to undertake the final connections. A single phase supply is available for hand tools.

**Testing**      A suitable vehicle will be available to carry out a full test of the equipment installed (including a lift load test if required).

**Skip Hire**      Builder/Customer to provide Skip for Straightset Waste. If no skip is available Straightset can provide at an extra cost of £190

Site provide Skip   
 Straightset provide Skip

*\*If any of the above is not applicable please leave the adjacent box blank\**
